## **Campbell Returns to Tanknology, Named VP of Southeast Region**

Austin, TX - Tanknology Inc. the world's largest provider of environmental compliance testing and inspection services, has announced that Eddie Campbell has returned to Tanknology and has been named Regional Vice President of the company's Southeastern region.

As the Vice President of the region, Campbell will oversee operations functions for the company in a geographical area that covers Alabama, Georgia, Florida, Mississippi, North Carolina, South Carolina and Tennessee.

A Marine Corps veteran, Campbell is a 14-year industry veteran. He entered the industry with Tanknology in 2004 and has served in a variety of roles for Tanknology. In 2014, Campbell was named the Vice President of the Southeast Region and later served as Senior Project Manager at RaceTrac. He returned to Tanknology in March 2019.

"Eddie is an excellent leader and will do well serving our Southeastern region," said Allen Porter, President and CEO of Tanknology. "We are extremely pleased with his return and believe his experience as a 'customer' will provide additional insight to the needs of all customers."

"His skill set – technical and regulatory expertise combined with ability to develop and lead, will greatly benefit the Southeast Region and will allow the Tanknology to prosper under his leadership."

Campbell based in Tanknology's Suwanee, GA, office and can be reached through the Suwanee office at 800-964-0070. Campbell can also be reached via email at [ecampbell@tanknology.com](mailto:ecampbell@tanknology.com)

## **About Tanknology**

Tanknology Inc. the world's largest provider of environmental compliance testing and inspection services, provides environmental compliance testing and inspection services at more than 50,000 petroleum fueling and storage facilities per year. Tanknology offers more than 30 compliance-related service offerings and holds 22 patents for leak detection and tank monitoring technology. Internationally, Tanknology licensees span more than 20 countries, providing services to the largest petroleum operators in the world.
