

Press Release

Tanknology to Host International Licensee Summit

Austin, TX, December 5, 2018 Tanknology Inc. the world's largest provider of environmental compliance testing and inspection services, announced today that it will hold an International Licensee Summit in Barcelona, Spain. The event will be held at the Renaissance Barcelona Hotel, February 18-20, 2019.

The event will be Tanknology's first International Licensee Summit. The company plans to host the event tri-annually, rotating locations among Europe, Latin America, and the Asia-Pacific region.

The Summit will include discussions, workshops, and informational sessions on topics such as: The Transition from Reactive to Preventative Maintenance for Fueling Facilities; Tank Cleaning, Fuel Polishing, Biocides, and Ethanol; Tanknology Best Practices: Operational and Promotional; Providing Tank Tightness Testing Services in Non-Retail Markets; and new service line opportunities such as STS ProTec and Fuel Quality Management. Tanknology will also host a Marketing Workshop for Licensees in attendance. The topics of discussion will include industry publications, advertising, trade shows and expos, social media, as well as general discussion of email marketing campaigns, brochures and other marketing materials.

Speakers for the event include Brad Hoffman, Vice President of Engineering for Tanknology; Mark Orr, Managing Director of LCM Environmental; Megan Stewart, International Manager for Tanknology; and Allen Porter, CEO and President of Tanknology.

Tanknology expects eighteen representatives from twelve of their International Licensees to be in attendance, reaching from the U.K., to the Philippines, to Mexico.

"We are looking forward to this opportunity to both strengthen long-held partnerships and support newly established licensees, furthering our mutual success," said Stewart, the organizer of the event.

Founded in the United States in 1988, Tanknology has been operating internationally for 28 years.

"Market conditions, regulations, and technology vary around the world, and continue to evolve, but there is commonality in our customers, challenges, and the services we provide," Stewart

continued. “Coming together as a network at the Summit offers a unique chance to learn, grow, and innovate.”

Stewart can be reached via email at mstewart@tanknology.com, or at +1-512-380-7104.

About Tanknology

Tanknology Inc. the world's largest provider of environmental compliance testing and inspection services, provides environmental compliance testing and inspection services at more than 50,000 petroleum fueling and storage facilities per year. Tanknology offers more than 30 compliance-related service offerings and holds 22 patents for leak detection and tank monitoring technology. Internationally, Tanknology licensees span more than 30 countries, providing services to the largest petroleum operators in the world.
